**AMENDMENTS TO THE SPECIFICATION AND CLAIMS SHOWING CHANGES****In the Specification:**

On page 4, lines 10 to 19, amend the paragraph as follows:

--Moreover, the invention proposes a message delivering device for delivering a message in a network [according to claim 29,] wherein for the message a condition for receiving the message by a terminal device is set. The message delivering device comprises a deciding means adapted to decide whether the message is to be received by the terminal device on the basis of the condition, and a transmitting means adapted to transmit the message to the terminal device on the basis of the deciding result of the deciding means.--
